BROTHER IN HERO ROLE

Ventured Too Far Out on the Ice Which Covered a Small Pond at the Foot of the Hill—Boy Plunges Into Deepest Portion of the Pool

Paul Hilty, age 14 years, son of Mr. and Mrs. Dalton Hilty of Pricedale, was drowned at 6 o'clock last night and his brother narrowly escaped a similar fate in an effort to save the drowning boy.

The two boys were sled-riding near their home and were venturing far out on the ice which covered a small pond at the foot of the hill. Paul was alone on the sled on the fatal trip and went headlong into the water when the ice failed to hold his weight. He plunged into the deepest part of the pool which at this particular point measured 12 feet. His brother ran to his rescue and nearly lost his life in an heroic effort to save the life of his older brother. The drowning boy made frantic efforts to save himself and was pulling his brother below the surface when neighbors were attracted to the scene by the boys' screams. The boys were taken from the water, but efforts to save the life of Paul were without avail. His body was taken to the undertaking establishment of C. L. Melenzyer, Belle Vernon, where it was prepared for burial.

Funeral services will be held at home of his parents in Pricedale, Sunday afternoon.

NO SHAVES ON THE CITY'S TIME

Pittston, Jan. 25—(United Press)—No more shaves and haircuts on the city's time.

This is the edict of Mayor Brown of this city to the bluecoats on his police force.

In a letter addressed to the officers of the law they are "warned" they will have to attend to their "toilet" on their own time. The mayor learned of a practice where the cops report for duty and then drop in the barbershop while on duty.

Husband Says Preacher Is A Home Menace

Chicago, Jan. 25—(United Press)—Branding the Rev. Carl B. Case as a menace to "sacred homes" Albert R. Leland, who named the pastor as co-respondent in his suit for divorce, today demanded that Dr. Case be driven from the ministry.

"I consider it my duty to my faith as a Christian and to my creed as a Baptist to drive such men as Mr. Case out of the church," Leland declared.

"He must not be given another chance to do to other men and women what he has done to me and my wife," Leland, in tears as he told of his wife's confession, accused the deacons of the First Baptist church of a plot to "whitewash" the pastor of complicity in his wife's misconduct. He charged that they tried to "bribe" him to say that his wife was insane.

FIELD MEET HERE ON TOMORROW

The big Indoor Field Meet toward which all of the Boy Scouts in the Monongahela valley have been looking forward for some time, has definitely been arranged for the following dates: Charleroi District meet, Saturday, January 26, at the High School gymnasium at 8 p. m. Monongahela City District meet, Tuesday, January 29, at 7 p. m., at the State Armory. Monessen will hold their District meet Saturday, February 2, at the Junior High School gym, at 7 p. m.

The plan adopted will be to hold these District Championship meets for the purpose of eliminating those troops that are not proficient in the various events, in order that the winners may represent the four towns in the Council Championship meet, which will be held as soon as these elimination contests have been completed. The winning troop in each of these towns in the District Championship meets will receive a beautiful embossed bronze shield, suitably engraved. This prize goes to the troop who compile the highest number of points in these events. The troop which wins these Scout Championships three successive times, retains possession of the shield. Every troop which wins the prize once will have its name engraved upon the shield and may keep it until the next meet.

The prize for the Monongahela City boys is on display at Seaman's Jewelry Store. Monessen has display. (Continued on page eight)

Thirty-sixth Commencement Witnessed By a Large Crowd, Despite the Weather Elements—Address of Dr. Petty Is a Marvel

IS WHOLESOME IN ADVICE

One of the Finest Addresses Ever Heard At Graduating Exercises Here—All Musical Features Excellent—Diplomas Presented By President of Board

Apparent disfavor of the proceedings on the part of Jupiter Pluvius, did not dishearten a large concourse of local folk, parents, relatives, and friends from attending the Thirty-Sixth Commencement exercises of the graduating class of the Charleroi High school at the Auditorium last night. And it was the consensus of opinion that the exercises were among the most profitable and felicitous of any ever given in the borough. The large attendance on the part of the public, despite the weather elements, was splendid testimony to the graduates.

Interest naturally centered on the address of Dr. C. Wallace Petty, pastor of the First Baptist church, Pittsburgh, who took for his theme, "Youth and the New Day." Dr. Petty drew many wholesome lessons from his talk, and gave advice to those who are starting in life's duties and responsibilities which, if followed, will accrue to their benefit.

The musical features, vocal and instrumental, were excellent, and gained favor with the audience. Charles Hall made a commendable speech in his picture presentation address, as did Dr. Fred C. Stahlman, president of the board of education, in his remarks to the graduates in the tendering to them of their diplomas.

The curs in this article are likenesses of the Misses Margaret Knight and Alvera Chalfant, young ladies who reflected credit to themselves, their parents, and teachers by attaining the highest percentage marks yet made by a High School graduate.

Benjamin G. Eynon, Registrar of Motor Vehicles, announced that application blanks for 1924 operator's license can be secured from dealers in motor vehicles, local offices of State Highway Department engineers and superintendents, as well as notaries public, justices of the peace and similar officers. Every effort possible is being made by Automobile division to see that operators of motor vehicles make early application for their 1924 operator's license so they will not be apprehended by the Motor Patrol after March 1, 1924.

Many motorists do not know that 1924 license tags and automobile certificates do not carry with them the right to operate their motor vehicles. Separate application must be made to operate in 1924. (Continued on page eight)

Forces Prepare For A Great Offensive-- Greatest Since Amendment

Washington, Jan. 25.—Prohibition forces are preparing for a great offensive, the greatest since the passage of the Eighteenth Amendment. The first step will be the carrying out of the plans adopted at the Washington Citizenship Conference last fall. The Committee of One Thousand, called for by that body, has been formed of men and women representing every state in the Union. A call has gone for a meeting to organize at New York on February 1.

It will be a great gathering, not only of the friends of prohibition but also of men who opposed the Eighteenth Amendment but who believe that the enforcement of law is a prime necessity at this time.

Jews, Roman Catholics, Protestants and people of no faith, Democrats, Republicans, Progressives, Socialists, capitalists and labor leaders will join in the February 1 gathering.

Hotel at 3 o'clock. A banquet will be given at 7 o'clock.

The four guests of honor for the dinner will be Rabbi Stephen Wise, Dr. John S. Coyle, former New York State Deputy, Knights of Columbus, Bishop Luther B. Wilson of the Methodist Episcopal church, and Colonel William Haywood, United States District Attorney for New York.

The speakers will include a United States Senator, a clergyman and a labor leader. They will be: United States Senator Carter Glass of Virginia on "The Menace to Constitutional Government by Violation of the Eighteenth Amendment," the Rev. Dr. Harry Emerson Fosdick of Union Theological Seminary, New York, on "The Moral Implications of the Violation of Law Upon the South of the Nation," and Warren S. Stone of Cleveland, Grand Chief of the Brotherhood of Locomotive Engineers, on "Law Enforcement, the Eighteenth Amendment and Organized Labor." Charles S. Strong, chairman of the Bar Association of New York City, is chairman of the committee in charge.

"The organization meeting is called because of the crisis concerning law enforcement. It is impossible to overstate the situation," said Fred L. Smith, chairman of the executive committee, in explaining the call today. "Enemies of good government, law and order are seeking by every means to defeat the carrying out of the prohibition laws."

In explaining the functions of the committee he said: "The Citizens Committee of One Thousand is made up of representative men and women who are vitally interested in the general work to be undertaken. They have been selected from all races, political parties, industrial groups and races. Their membership, however, is purely voluntary. No organizations have been asked to select 'official' representatives, although a large number have passed resolutions of approval and commendation."

"In view of the fact that the members are scattered over the entire country frequent meetings will not be attempted. For the period over which the issues involved may seem to demand a continuance of the same so. One cent a word.

STIRBLING WINS; MARGIN IS SLIGHT

The Indianapolis News of Tuesday, January 22, commenting on the Kid Stribling-Harry Fay fight says substantially that the so-called Macaron Dynamo has a long road to travel before he steps against any of the real contenders for the crown of Jack Dempsey.

Stribling outfought Fay, but his victory was slim. He towered above Fay and soon had a big advantage when he learned that Fay's blows leaked steam. Stribling is rugged, but has much to learn.

A burial permit should be taken out by Ma and Pa if Stribling fights Dempsey—purely press agent bosh. Fay was not hurt—except possibly in the infighting. Fay won the first, two rounds were even, and Stribling took the others, but neither boxer was injured.

PUSSYFOOT'S POPULARITY.
"My right eye is out, my left eye is in."
But I'm not going to die till the world is dry.

Such is the rhyming war cry of the celebrated Odysseus of aridity, Mr. "Pussyfoot" Johnson, as he returns to his native heather from his recent industrious wanderings in South Africa, Zanzibar, and thereabouts. It seems that he really expects to make the whole world dry and optically fix it 1930 as the date of that triumphant culmination. If anybody can perform such a miracle, "Pussyfoot" is the man for all accounts agree that he is a very persuasive person.

He does not excite irritation among even the most determined wets, his bland smile, his bubbling good spirits and his unmistakable good will to a large extent disarming those who gather to give him battle.

His spirit was notably revealed when some skylarking students in England, playing a joke on him, accidentally put out one of his eyes. The way Pussyfoot faced such a terrible misfortune won the friendship and brought serious thoughts to the minds of every one of those gay lads, who had intended to reel him.

One reason why Pussyfoot wins is that he is no kill-joy. He is a friend of conviviality—without drink. He would let joy be quite unconfined—except in one direction, "I have never heard," he says, "of a man coming home from a dance and chucking his baby out through the transom, or of a man suddenly deciding after his fifth cigar to wipe his shoes on his neighbor's mustache, or of a baseball man saying it with flattery to his wife."

LET PAPINI COME

President Butler has announced that, notwithstanding the objections, Giovanni Papini remains booked for a six weeks' summer lecture course on Italian civilization at Columbia University. It seems there was demand that the engagement be cancelled because of Papini's critical comments on the United States, which he is said to have described as "the fatherland of trusts," the "home of millionaire uncles," the "land of the phonograph, of electric street cars, of lynch law," of "the insupportable Washington," of "the boresome Emerson," of "the degenerate Whitman," of "the sickening Longfellow," of "the angelic Wilson," of "the philanthropic Morgan," and of "the undesirable Edison."

If Papini admires Mussolini more than Washington and Wilson, if he prefers the decadent D'Annunzio to Emerson and Longfellow, let him. There is no accounting for tastes, and these are insufficient reasons for barring out a brilliant Italian man of letters. We are not as sensitive to criticism as we were in the days of Dickens, Mrs. Trollope and De Tocqueville. We can afford to stand for what we are and let the critical (and sometimes envious) foreigners say what they please to the limit. It is worth while to add that this iconoclastic Papini has written a popular "life of Christ" which strange to say, is described as reverent and affirmative as well as historically valuable.

Why He Was Amused.
Ball-Headed Guest—"Well, sonny, what is it that amuses you?" Sonny—"Nothing; only mother has put a brush and comb in your bedroom."

What We See in Others.
That which we see in others we unconsciously bring to the light, even as the artist brings to the light what he sees in the block of marble.

Vacations Necessary.
Marriage is often a failure because neither of the interested parties has sense enough to take an occasional vacation from the other.

Moral Character Governs.
It is not money, nor is it mere intellect that governs the world—it is moral character—it is intellect associated with moral excellence.

The Pessimist.
After a man has tackled three or four enterprises and failed to succeed in any of them, he usually sets himself up as a pessimist.

Artificial Silk.
Artificial silk is to be made in Tennessee from wood grown in Maine, on land occupied by a powder plant during the World War.

Suspicion.
It is hardly possible to suspect an enemy without having in one's self a little of the enemy's nature.

Out of Reach.
When the meek inherit the earth, they will come into possession of a lot of problems no meek man can handle.

Will is the child of energy, Can is the son of pluck;

Can't and Won't are cousins, too, always out of work;

Won't is the son of Never Try, Can't is the son of Shirk.

Funny things, the laws of this country. Although prize fights are allowed, a federal law prohibits interstate transportation of films; but bull fights are not sanctioned anywhere in the country, yet it is perfectly legitimate to show movies of them. How come?

GIRLS.
There are girls who have entrancing blue eyes.

There are girls who have pretty smiles.

There are girls who bake delicious lemon meringue pies.

While others have Parisian styles.

There are girls who look darn cute in knickers.

There are girls who shake a wicked knee!

But the girl who takes the Peacock's whiskers.

Is the girl of old Charlottesville, see!

Statistics show that every rich uncle in the United States has a baby named after him.

Nothing spoils the looks of a pretty girl more than a pair of run-down heels.

We like to tell both sides of the story. One woman patron of the local telephone exchange got an answer to her signal so quick that she forgot the number that she wanted to call, and nearly swallowed her gum.

A COAL MINING CAREER

Did you ever think of coal-mining your way to wealth and happiness? I did once. I was taken whizzing into a

electric car. I saw little sticks of dynamite loosen a whole wall of black diamonds, watched a great undercutting saw rip the wall loose at the bottom and send it tumbling down almost into the shovel of the miner.

Somehow it was the power thus released with so little effort, not the fearfulness of being a mile under ground, that I carried away with me.

But our state laws have definite ideas against women as mine workers. So the only chance is to make good as an owner. And Leila B. Gunn of Middletown, Ky., has done just that. Not because she wanted a spectacular career. Far from it. It is because her husband needed help to acquire full ownership of a good mine that Mrs. Gunn is now president of the Lower Lignite Mining company. He had married without capital or expectation of the inheritance that so often determines ownership of the great underground wealth. So the two of them buckled down to a long systematic struggle that lasted more than twelve years.

Meanwhile there were children. The three of them have all graduated at high school, each with the highest standing in the class, thus setting a record for the Gunn family.

And there's the home itself. Mrs. Gunn planned the inside of the residence, and won a newspaper prize for its arrangement.

Then there's the world about them. Physically, it's wonderful. "We sit on our porch," reports Mrs. Gunn, "and look out on a million-dollar sunset every evening. We gaze at mountain scenery such as city people travel hundreds of miles to see. We have one of the purest water supplies that can be had anywhere."

But mentally and emotionally? Well, I asked Mrs. Gunn about that. "I've won a college education for my children," she answered first. Then she went on, "I do not come in contact with an unassimilated foreign population, and my children's friends are pure-bred Americans. I've many desirable friends. I have a good deal of influence over the Middletown schools. I'm a member of the Democratic state committee. And I've been asked to do a good deal of newspaper writing on home economics and politics. Besides, the human animal has been used to out-door life and to family life through hundreds of generations. City life is antagonistic to the entire history of the race."

Music of Hawaii.
One of the earliest musical instruments of the Hawaiians was made from two hollow gourds fastened together in the form of the figure eight. The seeds inside the gourd rattled as they were pounded on a palm nut, making a noise something like that of a tambourine. Thus the rhythmic sound was produced which is a vital element of the modern Hawaiian music. The air was carried on flutes of bamboo and rude clarinets, the whole comprising the orchestra to which the hula-hula girls danced at the religious celebrations in honor of their great god Waka.

Mexicans Live Over Shops.
In the City of Mexico everybody lives over a shop, if the house be two stories, or uses the lower floor as a garage, stable or quarters for the servants. Even the millionaires often rent the ground floor of their fine residences for business purposes.

Takes Pride in His Tools.
We ran across a rather amusing thing in a local shoe shine "parlor" the other day. A really peaceful-looking negro breezed into the place, pulled a blackjack from his back pocket and asked to have it shined. Fact!—Columbus Dispatch.

Nature's Wise Provision.
We ought to be thankful to nature for having made those things which are necessary easy to be discovered; while other things that are difficult to be known are not necessary.—Epictetus.

Thought 3 Little Children Needed Mother's Care

"My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself but did not want to leave my three little children who needed a mother's love and care. A cousin in California wrote me about May's Wonderful Remedy and I took a course of it. I have since been entirely well. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver, and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

NO royal personage, no epicure, can boast a better bacon for tomorrow's breakfast than you can if you insist on Puritan when you order. For Puritan, remember, is deliciously mild, yet piquant because it's

ripened naturally

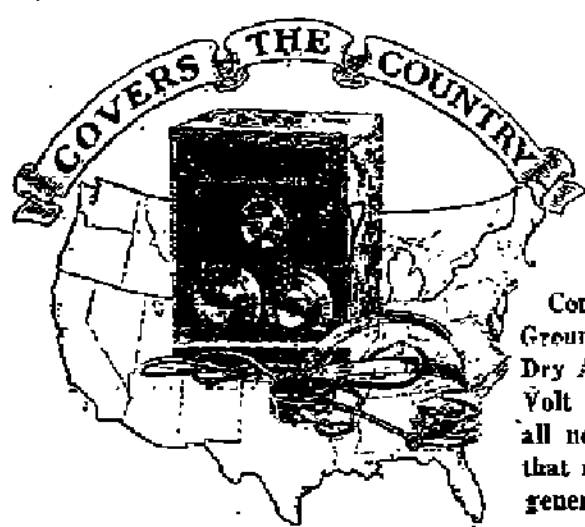

Rich flavor, however, is not Puritan's only pride. It is tender young meat, closer trimmed, and has a low moisture content. Thus you gain economy too, while you buy Puritan for its unusually delicious flavor. Sold in the piece or sliced in pound and half-pound cartons.

SCOUT DUFFLE BAG

BY H. S. HALL,
Scout Executive.

SCOUTING NON-SECTARIAN.

Catholic, Protestant and Jewish faiths use Scouting in connection with their program for Boys' work. It is non-sectarian. Over half of all of the Scout troops are formed through churches, as these figures indicate: 10,803 troops of the total 20,437 troops in America, are registered with churches of all faiths. The Scouting program is a live workable week-day program that supplements the Sabbath School training of the church, based on a definite code of ethical principles, which seeks fundamentally to build character into the boy and instill a love of Country and Community that will train him to be a good citizen. What the world needs today, is not more medicine to remedy its ills, but rather more normal, healthier preventive measures. If we are to have a sane, happy, God-loving nation we must begin with the boy and train him, using deeds, not words, to get over our object lessons. The

ing program, and the churches should use this program to its fullest capacity, by forming troops among their own boys and assuming the actual control of their own boys.

A WEEK'S CALENDAR.

Friday, January 25, Charleroi Court of Honor meets at the High School Auditorium, at 8 p. m. Saturday, January 26, Monongahela City will hold a Hare and Hound Race, beginning at Chess Park at 10:30 a. m. Saturday, January 26, Charleroi District Championships will be held at 8 p. m. HARE AND HOUND RACE.

The Hare and Hound race which was held Saturday, January 19, beginning at 9:30 a. m., from Donner Park, Donora, was a well attended and very enthusiastic race. About 20 boys were starters and the winners crossed the finish line in about one hour and 15 minutes, having covered a three-mile course.

Prizes consisting of a Signal Kit, First Aid Packet and Scout Diary, and other Scout equipment were awarded the winners.

Monongahela City will hold a Hare and Hound race January 26, from Chess Park, at 10:30 a. m.

CHARLEROI SCOUTMASTERS MEET.

Charleroi Scoutmasters met with their Scout Commissioner, S. D. R. Hill, and Deputy Commissioner, O. M. Wise, Sunday afternoon, January 20, at the Chamber of Commerce room, where a round table discussion was held, during which a great many problems which were puzzling the Scoutmasters were discussed, and plans made for proper solution. Among the other things discussed was the necessity of creating a higher standard for the boys passing Scout tests before the Courts of Honor, and accordingly, plans were laid for developing a Board of Examiners, under the direction of Mr. Wise, that will be responsible for seeing that these standards are promoted and properly carried out.

The development of a monthly program of activities in which all of the Scouts in each district could participate, resulted in a program being planned for the following three months, and this very important feature was entrusted to Mr. Arch Osborne, the new Deputy Commissioner. The need for more instruction for the Scoutmasters was demonstrated and the sentiment expressed was in accordance with the Executive, Mr. Hall, who suggested that a Scoutmaster's course lasting four weeks, be given.

NEW DEPUTY COMMISSIONERS.

In following out the plans of developing a Commissioners' Department, in each of the towns, that would be in direct charge of local Scout activities, several new Deputy Commissioners have been appointed by the Council. Rev. Alfred Johnson of Monongahela City, who has been in Scouting as a Scoutmaster and Deputy Commissioner in the old Allegheny County Council, has been appointed to the position of Deputy Commissioner in Monongahela. His duties are the developing of a Board of Examiners, and the carrying out of an activities program for the Monongahela Scouts. Experienced leadership is difficult to obtain and Monongahela City is in

lenced Commissioners as Rev. Kinports and Rev. Johnson.

Arch Osborne, one of the most popular men among boys in Charleroi, and himself an old-time athlete of prominence, has been appointed to the position of Deputy Commissioner for Charleroi. This means that Charleroi's Commissioners' Department is now organized and functioning under Mr. S. D. R. Hill, Commissioner, and

O. M. Wise and Arch Osborne as Deputies.

CHARLEROI TO FORM TRAFFIC SQUAD.

The Charleroi Council, when it met last Monday, January 21, outlined a plan whereby a group of older and experienced Scouts will be trained by the Police Department, in assisting in handling the Saturday night traffic. The traffic problem in Charleroi is a rather serious one and through this plan matters will be greatly simplified. Similar plans are being made in Monessen by Mayor Woodward, who is a member of the Boy Scout Council. It is the actual doing of these pieces of Community Service which develops citizenship, and the pride in one's own community that is necessary to be developed in the boy.

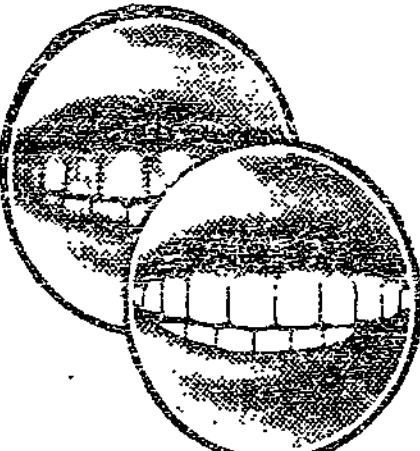

ENORMOUS DAMAGE BY RATS

Loss by Rodents to Produce and Property in United States Amounts to \$200,000,000 Annually.

Rats affect a larger percentage of the population than any other pest in existence. Infesting almost the entire work of destruction, of transmitting disease, and of inspiring repugnance or dread where they are present or threaten invasion of the home.

Damage by rats to produce and property in the United States amounts to about \$200,000,000 annually. Injury to farm produce starts when the seed is first planted, and continues through the growing season and harvest in the warehouse and retail markets, and often in the home of the consumer. Such losses in the aggregate so affect the ultimate price of foodstuffs that everyone shares them, whether he maintains rats on his premises or not.

For information regarding the relation of the rat to the public health, address the surgeon general, United States Public Health Service, Washington, D. C. For information relative to the habits life history, and economic status of the rat and for additional information in regard to anti-rat campaigns and methods of control, address the bureau of biological survey, United States Department of Agriculture, Washington, D. C.

GOING INTO BUSINESS FOR YOURSELF?

The young man who expects some day to go into business for himself cannot begin too early to establish his credit.

One of the very best ways to do it is to make consistent use of a checking account.

It gives him all the advantages of safety and convenience in handling his finances and builds at the same time his credit at the bank and his prestige in the community.

A COMMISSIONER TAKES OVER A TRUST COMPANY

Kansas City, Mo., Jan. 25.—(United Press)—The Guaranty Trust Company of Kansas City, capitalized at \$750,000, was taken over by the state financial commissioner.

A shortage of working capital, resulting from a surplus of farm loan papers caused the action, directors said.

Directors in a meeting voted to turn over the company to the state commissioner for reorganization. They said they hoped to make good all losses by bringing new money into the firm.

BOY RISKS HIS LIFE FOR THAT OF HIS FRIEND

A letter of recommendation from the National Court of Honor, Boy Scouts of America has recently been awarded sixteen-year-old Scout Lester Lederer, of Milwaukee, Wis. The letter, of commendation and application of Scout training saved his pal from drowning in the Lincoln Park lagoon. Young Robert Krueger, a classmate of Lederer's, had gone down for the third time, when the Scout plunged into the water and, securing a hold on the half-dead boy, dragged him safely to shore.

GREAT SCRAMBLE FOR HOUSES AND APARTMENTS

Bloomington, Jan. 24.—(United Press)—There will be a grand scramble here April 1, when about half the town will charge homes and apartments. More than 200 families have received notices from their landlords and many more will move of their own accord, real estate men say. Increases in rent are reported to be the causes for the unusual number of notices this year and a building boom is forecast for the present year.

ATTORNEY MURDOCH TO ADDRESS MEN

John M. Murdoch, Jr., an attorney of Washington, will address the Men's Bible Class at the Washington Avenue Presbyterian Church, at a business and social session of the organization to be held in the church this evening at 7:30 o'clock. Special music will add to the felicitous features incident to the occasion. Luncheon will be an amenity.

Mr. Murdoch is president of the Washington County Sunday School Association, succeeding Dr. Joseph W. March of this place.

WOMAN CLAIMS SHE IS PRINCESS OLGA

Rio de Janeiro, Jan. 25.—(United Press)—The arrival of a woman who says she is the Princess Olga, daughter of the late Czar of Russia, is arousing interest throughout Brazil.

The woman claims a strong resemblance to photographs of the Princess—long believed dead—and tells a plausible story.

She says she escaped into Germany with the aid of a few faithful Cossacks, after being wounded by the bolsheviks and finally made her way to Holland, where she supported herself by dancing.

The woman exhibits deep scars on her breast, which she says were inflicted by the bolsheviks.

"I worked in Holland for some time," she says, "but was forced to disguise myself when I learned bolshevik agents had learned my whereabouts."

"Finally I managed to get aboard the steamer Antonio Delino and made my way to Santos (the big coffee port of Brazil) and then worked for some time in Sao Paulo, before coming to Rio de Janeiro."

The woman is able to tell a convincing story of life in the Russian court circles of the influence of Rasputin and his death and other incidents which have led newspapers here to accept her story.

She speaks perfect English, French, and German, besides Russian.

A former member of the Russian diplomatic service, who once met the Princess Olga, says the woman bears a strong resemblance to the daughter of the Romanoffs.

The story of the alleged princess has been circulating in the Russian colony here for some time and finally leaked into newspaper offices.

The woman at first refused to discuss her case, but told her story when she was visited by the Russian diplomat.

"I have tried to keep my identity secret," she said, "and do not wish to profit by it. All I want now is a chance to work and forget the past."

QUICK THINKING OF MR. MURPHY

A LIFE SAVER

Brownsville, Pa., Jan. 25.—(United Press)—Quick thinking on the part of Frank Murphy, of Pittsburgh, probably saved the lives of nearly a score of persons when fire broke out in the Storey Hotel in Market street here early today.

Murphy, who is a guest at the hotel, was awakened by the smell of smoke, and running through the hotel aroused other guests by cries of fire.

He also assisted several women guests in getting some of their valuables to safety. The fire started in the wash room in the rear of the hotel and quickly spread to an adjoining room. Several guests were nearly overcome.

The crew on a passing Monongahela Railroad train, seeing the smoke issuing from the building, sounded an alarm and three fire companies responded. When the firemen arrived some of the guests were still in the hotel unable to get out because of the dense smoke filling the hallways. Ladders were quickly placed up the side of the structure and the remaining guests were carried out. The damage is estimated at about \$10,000 to \$15,000.

MISS BUFFLE IS A NEW OFFICER

Miss Lela Buffle, postmaster at Lock No. 4, was honored at the meeting of the Western Pennsylvania Postmasters' Association held in East Pittsburgh, by being elected third vice president.

J. D. Hershey of McKeesport was named by the assembly as its president for the ensuing year.

Since the war, Hollywood has been flooded with beggars, who are able-bodied men, but simply too lazy to work and excuse their lousy appearance by claiming they are ex-service men who have been gassed. They do a great injury to real ex-service men and are a nuisance, but the other day one stopped at a house and made a bid.

"I'm giving you this quarter," said the lady of the house, "not because you deserve it, but because it pleases me to give it to you."

"Thanks," said the mendicant, "but couldn't you make it a dollar and thoroughly enjoy yourself?"

Her Radio

"I was very sorry for your wife during the sermon this morning," remarked Doctor Brongher to a regular parishioner a few Sundays ago. "That violent fit of coughing centered the eyes of the entire congregation upon her and she must have been terribly embarrassed."

the lady's husband. "My wife was wearing her new hat for the first time," and he winked knowingly.

Undaunted Youth

"He keeps calling on the sickle, girl in spite of the fact that she jilted him."

"Yes," replied Miss Cayenne. "And he'll probably have his revenge. He isn't much of a Romeo, but he is a wonderful oil-stock salesman."

Making of Ice.
The largest item of expense in the artificial ice industry is neither labor nor raw materials, as in most other manufactures, as the material, being water, costs little, and the machinery does the work. The big item of expense is coal, with which to produce the heat to expand the steam and run the compressor ice machine.

Nest on Barn Side.
Swallows, on swift flight, cleanse the air of flies and mosquitoes, says Nature Magazine. The cave or cliff swallows fasten their mud nests to the side of the barn under the eaves, or to the face of cliffs. Tree swallows nest in holes of rocks, in hollow trees, and in bird boxes.

English Lead in Presidents.
Considering that the population of the United States is made up of virtually all nationalities, it is a surprising fact that only two presidents have borne other than British surnames. These are both Dutch: Van Buren and Roosevelt.

Rhine and Rhone.
The sources of the Rhine and the Rhone are about three miles apart. The length of the Rhine is 800 miles; of the Rhone, 504 miles. The former river empties into the North sea; the latter into the Gulf of Lyons and the Mediterranean.

Paris Catacombs.
The Paris catacombs are again becoming one of the show places of the city. The great labyrinth corridors cut from stone hold the skeletons of more than 3,000,000 persons who have died in Paris during several centuries.

Inventor of Vacuum Bottle.
The vacuum bottle was invented by Sir James Dewar, a great English chemist, for the purpose of carrying a serum from his laboratory to Queen Victoria's palace during her last illness.

Always Red King.
The reigning sovereign of Persia is always called by his subjects the red king, from the color of his turban. A red turban is, in Persia, the distinguishing mark of royalty.

Disarming.
The tramp (who has entered a country grocery, but notices a policeman)—"And, so I humbly ask if you would kindly—give a fellow—your daughter's hand."—Kasper (Stockholm).

Jimson Weed as Anesthetic.
In prehistoric times, Zulus and other tribes of North American Indians used a substance obtained from the jimson weed as an anesthetic during surgical operations.

Curious Belief.
Among English miners there was formerly a curious belief that, when having a bath, they must not wash the back, as water weakened that part of the body.

Distinction for Woman.
Miss Adele M. Emin, of Providence, has the distinction of being the first woman in Rhode Island to qualify as a certified public accountant.

The Contented Man.
A man never reaches the highest degree of contentment until he becomes perfectly indifferent, and then he has nothing to live for.

Woman Rules 2,000,000 People.
The Begum of Bhopal, the only recognized woman ruler in Asia, commands the allegiance of nearly two millions of people.

India Leads in Oil Seeds.
With a production in normal years in excess of 5,000,000 tons, India raises more kinds of oil seeds than any other country.

Diluted.
Baxter—"It's queer about that boot-legger. He used to be a milkman." Thaxter—"Still uses the same pump, I suppose."

Beware Electric Bulbs.
A scrubwoman standing on a wet floor was recently killed when she touched an ordinary electric light bulb.

FIELD MEET HERE ON TOMORROW

(Continued from First Page)
ed theirs at the Monessen Savings and Trust Company, and Charleroi is exhibiting their prize at Piper's Pharmacy.

In addition to the prizes for the District Championships, a very large shield has been secured, and will be presented to the winner of the entire Council Championships. This is awarded on the same basis as the District Championship trophies, and must be won three successive times to retain possession.

These meets are held solely for the purpose of stimulating more interest in the Scouting activities, and in developing proficiency, which otherwise would not be developed without the stimulus of keen competition.

The events for which the highest number of points will be given are:

Fire by friction, each boy to supply his own set; the First Aid race, in which a team of four boys treat a patient in accordance with the problem, which has been developed and successfully returns with the patient to the finish line. Neatness and correctness in First Aid procedure takes precedence over speed or time. The Knot Tying race, in which each boy will tie a certain number of knots as given, is worked out for speed and accuracy. The Signal Flag Drill, in which a team of Scouts actually receive and transmit messages, and the Patrol Drill, in which a patrol of 8 boys is trained under one of its own boy leaders, and finally, the Wall Scaling contest, in which a patrol of 8 boys endeavor to scale a 9-foot wall against time.

The following list of officials has been arranged for in Charleroi: Mr. W. F. Blackburn, head judge. All of these meets will be under the direction of Hiram S. Hall, Scout Executive, who will act as referee.

WOMAN TO FIGHT DIVORCE ACTION

Pittsburgh, January 25.—(United Press).—Mrs. Frederick A. Rhodes today announced she will fight the divorce action brought against her by her husband in Los Angeles on grounds of cruelty.

Dr. Rhodes was at one time head of the moral efficiency commission which was organized to clean up the city, moved to Los Angeles a year ago, and yesterday started a divorce action. His wife says that he was untrue, intimate with nurses, a hypocrite, liar and family neglecter.

There's a Difference.
Men are much more unwilling to have their weaknesses and their imperfections known than their crimes; and if you hint to a man that you think him silly, ignorant, or even ill-bred, or awkward, he will hate you more and longer than if you tell him plainly you think him a rogue.

Where Platinum is Found.
Platinum is found in small spots, particles along with other metals, including gold and chrome-iron. Occasionally it is discovered in the form of nuggets, which are naturally extremely valuable. A 25-pound nugget of platinum would at the present time be worth over \$30,000.

Better Dead Than Alive.
There are thousands of men in the country who say they are willing to die for the people; and I'm sorry some of them do not do it. Living, they make a great deal of unnecessary trouble.—Ed Howe's Monthly.

Rabbits Destroy Vegetation.
Scientists of the United States agricultural department are introducing plants on Laysan island of the Hawaiian game preserve in an effort to restore vegetative conditions completely destroyed by rabbits.

World's Biggest Store.
The biggest store in the world under one roof is in Moscow. It is a gigantic department store, or bazarr, under a thousand different heads, selling all kinds of goods and carrying every kind of business.

Soundest Wisdom.
He that sympathizes in all the happiness of others perhaps himself enjoys the safest happiness, and he that is warned by all the folly of others has perhaps attained the soundest wisdom.—Colton.
